

The Science of Responsive Air and Surface Purification

How it Works

PlasmaGuard™ works with your central HVAC fan to purify the air and surfaces in your entire home or business.

Patented Process

When particulate levels are too high the PlasmaGuard™ Sensor activates the patented PlasmaGuard™ Generator, which is installed in your central HVAC system. The Generator uses our patented process to begin sending an overabundance of natural oxygen ions through all of your air ducts.

Total Coverage

Our patented blend of high energy, oxygen ions flood every room and begin the purification process. Every register in your home or business becomes an air and surface purification system.

Naturally Purified

Our patented blend of powerful ions attack air and surface contaminants, while driving particles out of the air and neutralizing odors.*

24/7 Monitoring

Purification is proven and monitored from anywhere. See your minute-by-minute air quality on your in-room PlasmaGuard™ Sensors, or monitor and control your system from any smartphone, tablet, or voice assistant device.

What it Inactivates

Patented technology safely inactivates up to 99.994% of tested viruses, allergens, odors, and bacteria in occupied environments.*

Biological Agents

Bacteria, Mold Spores, and Tested Viruses*

Odors

Pets, Smoke, Mildew, Mold, Cooking, Sports, and Fabrics

Allergens

Pollen, Pet Dander, Dust, Lint, and Dust Mites*

Toxic Chemicals

Breaks down VOCs emitted from: Cleaning Products, Disinfecting Agents, Paints, Pesticides, Solvents, and Varnishes

Applications Served:

Residential-Commercial-Industrial

Industry Applications:

Assisted Living, Government Buildings, Gyms & Workout Centers, Healthcare Facilities, Hotels & Hospitality, Office Buildings, Manufacturing, Retail Shopping, Schools & Universities, Small Businesses, Wastewater Treatment, and more.

5 Year Limited Warranty

*5-year Limited Warranty on PlasmaGuard™ Air Purifier.
2-year Limited Warranty on PlasmaGuard™ Sensor and Hub.

PlasmaGuardLLC.com

*Test results are based on aerosol testing of Cystovirus Phi6 and surface testing of active Coronavirus 229E. While PlasmaGuard eliminates 99.99% of airborne coronavirus surrogates, there is currently no way to universally prevent coronavirus infections. To view test reports on specific contaminants and performance levels of PlasmaGuard, please visit: <https://.plasmaguardllc.com/test-reports/>.
